## visit 2019

We must not forget the Holocaust. We must remember those who lost their lives so it will not happen again. Join us on our remembrance visit to Auschwitz in Poland, 1-4 February, 2019. It is open to students from all Dutch universities and professional (hbo) institutions.

We invite students to remember those who perished in the Second World War by visiting Auschwitz. We will discuss the subject of refugees and war in depth. We invite you to write a reflection on this visit and to share it with your fellow students.
